ABOUT SSR VINA

SSR VINA proudly operates a decking tiles manufacturing facility with an annual capacity of over 250 containers, supported by a skilled workforce of 200 employees and a dedicated team of quality control engineers. With modern production lines and optimized management processes, we are capable of fulfilling large-scale orders for big box retailers while remaining flexible to accommodate OEM/ODM requirements from distributors and contractors. Our export markets span across North America, Europe, and Asia, reinforcing SSR VINA's position as a trusted partner in the outdoor wood industry.

Every development strategy at SSR VINA is guided by a vision of long-term sustainability, demonstrated through the strict implementation of the ISO 9001 quality management system and the use of FSC-certified wood sources. With stringent control from raw materials to finished products, combined with stable production capacity and timely delivery, SSR VINA has become the ideal choice for B2B buyers worldwide.

SSR VINA CO., LTD

Certified Performance & Product Range

Every product—from Acacia and Composite to Artificial Grass and garden sets—is crafted for durability, weather resistance, and timeless appeal. SSR VINA provides one trusted supplier for many outdoor segments, ensuring both design flexibility and dependable quality across your collections.

Sustainable & Reliable Supply

Designed for long-term projects and scalable supply chains, our decking tiles combine eco-friendly materials with precision manufacturing. We prioritize stable quality, on-time delivery, and optimized costs to help partners maintain consistent standards across global markets

Factory-Direct Advantage

With integrated production and customization options, we help clients reduce sourcing risks and streamline logistics. Enjoy better cost control, faster lead times, and stronger competitiveness in large-scale retail or project-based procurement.
