ABOUT SSR

With over 15 years of experience, SSR VINA has grown from a woodworking manufacturer into a trusted global partner.

We have refined our craftsmanship to master the art of wood processing, combining tradition with innovation to deliver products that meet the highest standards of quality. Our expertise covers a wide range of wood products – from finger joint boards, panels, and shelving to custom butcher block countertops – all engineered to provide durability, functionality, and timeless design.

At SSR VINA, we are more than just a producer.

We serve as a global supplier of furniture and kitchen solutions, offering tailored cabinet systems that are designed to match your exact specifications. Every detail – from material selection to finishing – is carefully managed to ensure consistency and excellence. With a strong commitment to meeting demanding project timelines, we provide not only products, but also peace of mind for our partners worldwide.

Choose SSR VINA as your reliable partner in every project.

Our dedication to superior craftsmanship and customer satisfaction ensures that each kitchen we deliver reflects excellence in both design and performance. Together, we build lasting value and long-term partnerships across the global market.

COMPANY MILESTONES

Founded SSR Vina
Driven by a lifelong passion for wood and the vision of bringing Vietnamese products to the world, Mr. Hung Van Vu – President & CEO – established SSR VINA. This was the beginning of a journey dedicated to transforming natural resources into products of global quality and lasting value.

2009

Started Exporting to Korean Market
SSR Vina was established in late 2009 and officially commenced operations in early 2010. During this initial phase, we focused primarily on the Korean market with the following key products: Sawn timber for pallet, Finger Joint Board, Butcher Block

2010 - 2012

2013 - 2017

Expanding Business
Building on early success, SSR VINA expanded its product range and global footprint. We supplied Finger Joint Boards and Butcher Blocks to over 25 countries across North America, Europe, and the Middle East.

We also developed RTA kitchen cabinets and bathroom vanities with stone or butcher block countertops, meeting international standards of quality and style.

2018 - Now

Research and Adapt
During this period, SSR VINA expanded its wood product line using local and imported materials like Teak and Birch.

We broadened our RTA cabinet finishes and launched new kitchenware such as cutting boards, lazy Susans, and noodle boards for North American and European markets.

These efforts grew our reach to over 40 countries, with monthly shipments exceeding 500 containers.

FACTORY SYSTEM OF SSR VINA

SSR VINA operates a modern, fully integrated manufacturing system strategically located across Vietnam to meet the rising global demand for high-quality kitchen cabinets and wood products. Each facility is equipped with advanced technology, efficient production lines, and strict quality control, ensuring consistency, scalability, and cost optimization.

With a total capacity of 18,000 m³ of finished products per month, we export over 200 containers of kitchen cabinets monthly, averaging 120–150 modules or 50 full kitchen sets per 40HC container.

From customized kitchen cabinet programs to complete furniture components, our facilities serve both OEM partners and global distributors. Located near raw material sources and international ports, we ensure smooth logistics, fast delivery, and long-term reliability - making SSR VINA a trusted partner for clients in North America, Europe, and beyond.

WHY CHOOSE US?

Competitive pricing with sustainable supply chain.

Providing OEM/ODM support for private label

FSC Certificate for sustainability purpose.

Flexible customization to meet diverse market needs.

Over 15 years of exporting with quality and reliability.

Modern facilities with advanced, high-capacity production.

SSR VINA GLOBAL NETWORK

CABINET CONSTRUCTION

Website: www.ssr.vn

Inside, a solid wood corner bracket for extra stability.

Inside, 1/2" plywood panel dados into face frame. Side reveal is 1/4" before skin is applied.

3/4" adjustable plywood shelf, finished with birch wood veneer top and bottom edge banded on the front leading edge.

1/2" furniture-grade plywood coated with UV clear coat.

All hinges are 6-way adjustable and have an internal soft-close mechanism on each hinge.

1/2" thick Clear UV coated panels.

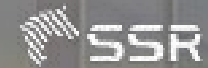

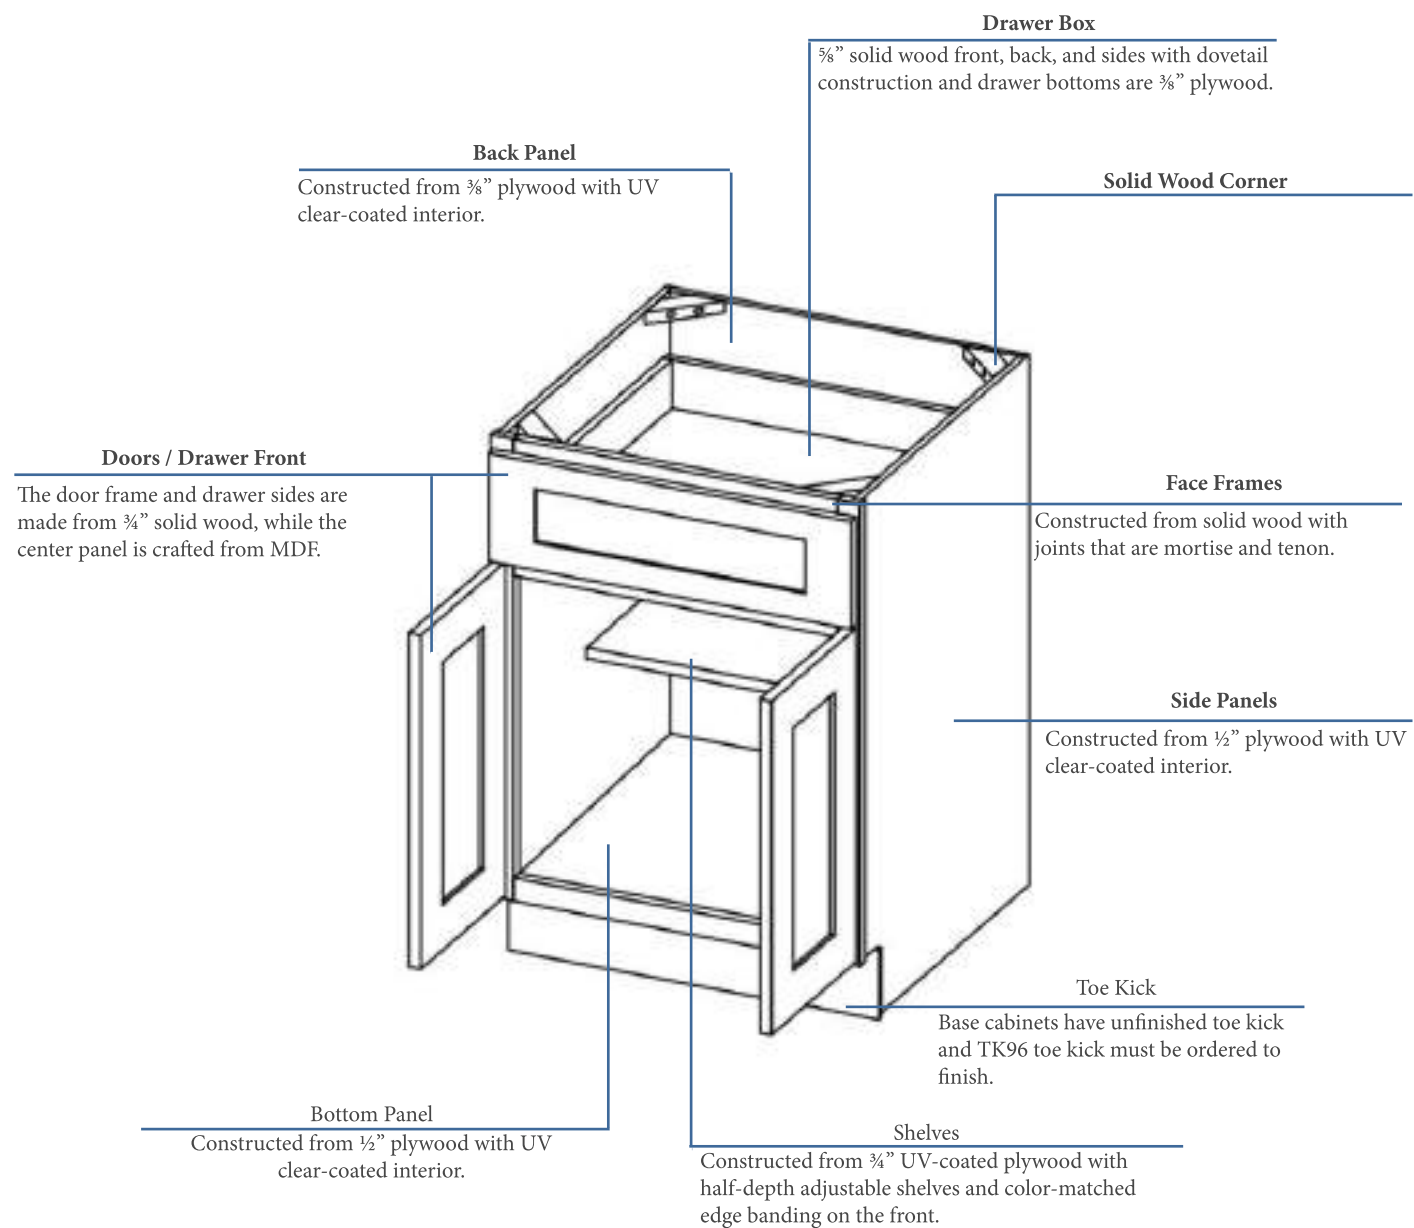

5/8" solid wood dovetail construction on all sides of drawer box with UV clear coat on all exposed surfaces. Drawer glides are all steel constructed soft-close mechanisms. 3/8" plywood drawer bottom.

Classic Recessed

Shaker Panel *Collection*

Celebrated for its simplicity and clean lines, Shaker Panel doors bring a sense of balance and harmony to any kitchen. The flat center panel and square frame design emphasize craftsmanship and versatility, making it a timeless choice that fits both classic and modern interiors.

Best suited for: Modern Farmhouse, Scandinavian, or Minimalist kitchens seeking a clean, refined, and enduring aesthetic.

Standard Shaker

Slim Shaker

Cross Shaker

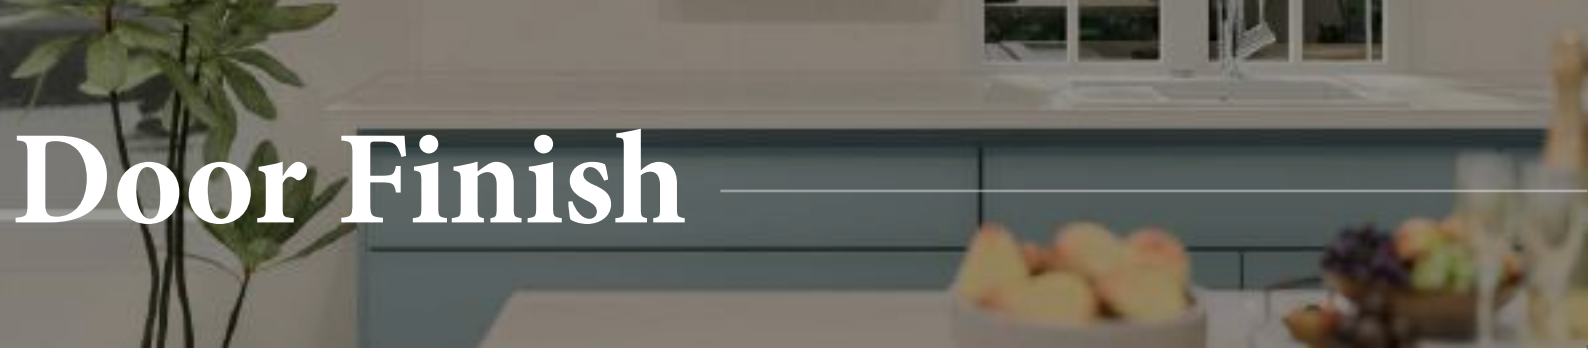

Slab *Collection*

Minimal yet refined, Slab doors embody the essence of modern design with a smooth, seamless surface that highlights the natural beauty of wood grain. Their clean and uninterrupted form brings a contemporary touch to any kitchen while maintaining a sense of warmth and simplicity.

Best suited for: Modern, Contemporary, or Scandinavian kitchens seeking a sleek, minimalist look with timeless appeal.

Pure Slab

Door Finish

Painting

A painted finish delivers a smooth, modern look with durable color and moisture resistance. Customized color codes available — popular options shown below.

Color

UV

A UV finish provides a highly durable, scratch-resistant surface with superior color consistency and gloss. It enhances the natural beauty of the wood while offering protection against fading, moisture, and daily wear — ideal for long-lasting, easy-to-maintain cabinets.

Color

Melamine

A melamine finish provides a hard, protective layer with excellent scratch, heat, and moisture resistance. It delivers a clean, consistent appearance that's easy to maintain - ideal for high-use kitchen and storage areas.

Color

Veneer

A veneer finish showcases the natural beauty and grain of real wood, adding warmth and character to each cabinet. It combines an authentic wood look with enhanced durability and a refined appearance, making it perfect for premium interiors.

MODERN WHITE...

Door Style: Shaker Style
Door Finish: White Painted
Countertop: Acacia Butcher Block Countertop

Pure white cabinets embrace the kitchen like a soft morning light, creating an atmosphere of clarity and calm. The butcher block countertop adds warmth with its natural wood grain, a timeless balance of elegance and practicality. The L-shape layout with tall storage units, integrated drawers, and seamless doors ensures both beauty and functionality. A kitchen designed not only for cooking, but also for refreshing the heart of your home.

CLASSIC ESPRESSO...

Door Style: Shaker Style
Door Finish: Espresso Painted
Countertop: Rubberwood Butcher Block Countertop

Deep espresso cabinets create a kitchen wrapped in warmth and sophistication, much like the richness of a perfectly brewed coffee. The smooth shaker fronts and tall storage units balance elegance with everyday practicality, offering abundant space for both cooking and organization. Paired with natural butcher block countertops and subtle under-cabinet lighting, this L-shaped design transforms the heart of the home into a space that is both functional and inviting.

TRANSITIONAL GRAY...

Door Style: Shaker Style
Door Finish: Gray Painted
Countertop: Birch Butcher Block Countertop

Blending the clean lines of shaker style with the soft charm of a gray finish, Transitional Gray offers a kitchen design that bridges modern and classic aesthetics. The muted tone pairs seamlessly with wood countertops, creating warmth within a refined atmosphere. With a practical layout and timeless appeal, this kitchen embodies balance, sophistication, and lasting comfort for everyday living.

MINIMALIST TAUPEI...

Door Style: Slab Panel
Door Finish: Taupe Matte Painted
Countertop: Marble Countertop

With smooth flat-panel doors in a refined taupe matte finish, Minimalist Taupe brings a calm, modern aesthetic to the kitchen. The marble-look quartz countertop and integrated lighting highlight both elegance and functionality, creating a space that is sleek, practical, and timelessly sophisticated.

NATURAL WOOD SHAKER...

Door Style: Shaker Style
Door Finish: UV Clear Coating
Countertop: Quartz Countertop

Crafted from premium wood with a clear finish, Natural Wood Shaker highlights the authentic grain and warmth of natural timber. The classic shaker doors balance simplicity with elegance, while the golden hardware adds a refined touch. Paired with a durable quartz countertop, this kitchen design blends timeless beauty, everyday functionality, and the inviting comfort of nature.

ELEGANT SAGE...

Door Style: Raised Panel
Door Finish: Matte Sage Green Painted Finish
Countertop: Marble Countertop

Crafted with elegant raised panel doors in a soft matte sage green finish, Classic Sage Raised brings a refreshing blend of sophistication and serenity to the kitchen. The muted green tone complements the detailed door design, while the white marble quartz countertop adds a clean, modern balance. Together, they create a timeless space that feels calm, inviting, and beautifully refined.

MORDERN PASTEL BLUE...

Door Style: Recessed Panel
Door Finish: Matte Pastel Blue Painted Finish
Countertop: Laminate Countertop

Crafted with raised panel doors in a soft pastel blue hue, Pastel Blue Raised captures the charm of a serene, coastal-inspired kitchen. The matte painted finish pairs beautifully with subtle gold hardware, bringing an airy and refined look to the space. Combined with a white marble quartz countertop, this design evokes calm sophistication — a perfect blend of elegance, comfort, and modern freshness.

QUALITY INSPECTION & PACKING

Measuring Cabinet & Drawer Dimensions
Each cabinet and drawer is carefully measured and inspected to ensure precise sizing, perfect alignment, and smooth functionality. This process guarantees that every component meets strict quality standards before packaging and shipment.

Checking Drilling & Edge Banding Accuracy
All drilling points and edge banding are precisely inspected to ensure accurate alignment, clean edges, and tight fittings. This process guarantees seamless assembly, smooth operation, and a refined finish that meets international quality standards.

Inspecting Material, Surface & Color Quality
Every component is thoroughly inspected for material consistency, surface smoothness, and color uniformity. Any product showing color deviation, surface defect, or material inconsistency is immediately rejected. This ensures that only perfectly matched and high-quality cabinets are approved for delivery.

Trial Assembly & Hardware Function Testing
Each cabinet is fully assembled on-site to verify structural fit and stability. All soft-close hinges and drawer slides are carefully tested to ensure smooth, silent operation and performance that meets international quality standards. Any component not functioning perfectly is adjusted or replaced before shipment.

Flat Packing

1. All side are covered by foam

2. Wrapped by carton

3. Loading container

Pallet Packing

1. Assembled Package

2. Single Pallet Per Unit

3. Loading container

Assemble Packing

1. Protective wrapping for each cabinet module

2. Wrapped by carton

3. Loading container

At SSR VINA, quality and reliability are at the heart of every process — from material selection to final inspection. We are dedicated to delivering products that meet the highest international standards and reflect our commitment to excellence.

We look forward to building long-term partnerships based on trust, consistency, and shared success with you.
