BUTCHER BLOCK COUNTERTOPS

Engineered for performance and consistency, SSR Butcher Block Countertops are manufactured from premium solid hardwoods with precise machining and strict quality control.

Each panel is kiln-dried, edge-glued, and finished to meet the demands of large-scale production and global distribution.

Our countertops are designed for durability, workability, and aesthetic value - ideal for furniture manufacturers, kitchen cabinet producers, and wholesale distributors seeking reliable, export-grade wood components.

Precision-crafted surfaces that meet industrial standards - ready for fabrication and large-volume assembly.

Consistent material quality and moisture control ensure reliability across every shipment.

Stable, defect-free panels suitable for both unfinished and prefinished applications.

Developed for OEM/ODM and project supply - supporting contractors, furniture makers, and brand partners worldwide.

FINGER JOINT BOARD

Finger Joint Board is a cornerstone of our butcher block offerings, representing a highly stable and resource-efficient construction. It utilizes precision-cut interlocking profiles bonded under high pressure, creating robust planks that maximize dimensional stability and minimize warping for superior durability.

As a dedicated OEM/ODM partner, we leverage this technology to offer complete customization in wood species, grading (e.g., A/B, B/C), exact dimensions, and specialized edge finishes (Square, Tubi, etc.), ensuring this reliable and cost-effective material meets the precise needs of any large-scale project or bespoke design.

Finger joint square edges

Finger joint with 1 live edge/ tubi edge

Finger joint with 2 live edges/ tubi edges

EDGE GLUED BOARD

Edge Glued Board utilizes full-length wood staves-typically wider than Finger Joint staves-glued along their edges to form a single, expansive surface. This construction showcases the natural beauty of the wood's continuous, long grain pattern, offering a clean, elegant, and classic aesthetic.

Through our comprehensive OEM/ODM services, we deliver Edge Glued Boards customized in width, length, and species, including the striking Live Edge variations shown below, making them perfect for premium, custom-fit countertops, tabletops, and feature islands.

tubi edge

CHEVRON BOARD

Chevron Board is a cornerstone of our butcher block offerings, representing a highly stable and resource-efficient construction. It utilizes precision-cut interlocking profiles bonded under high pressure, creating robust planks that maximize dimensional stability and minimize warping for superior durability.

We leverage technology to offer complete customization in varieties wood species, grading exact dimensions, and specialized edge finishes, ensuring this reliable and cost-effective material meets the precise needs of any large-scale projects or bespoke design.

ABOUT SSR

SSR has grown from a woodworking manufacturer into a trusted global wood supply chain.

We have refined our craftsmanship to master the art of wood processing, combining tradition with innovation to deliver products that meet the highest standards of quality. Our expertise covers a wide range of wood products – from finger joint boards, panels, and shelving to custom butcher block countertops – all engineered to provide durability, functionality, and timeless design.

At SSR, we make your demand more powerful.

We serve as a global supplier of wood countertops, offering tailored cabinet systems that are designed to match your exact specifications. Every detail – from material selection to finishing – is carefully managed to ensure consistency and excellence. With a strong commitment to meeting demanding project timelines, we provide not only products, but also peace of mind for our partners worldwide.

Choose SSR as your reliable partner in every match.

Our dedication to superior craftsmanship and customer satisfaction ensures that each match we deliver reflects excellence in both design and performance. Together, we build lasting value and reliable supply chains across the global market. in every space.

BUTCHER BLOCK - FINGER JOINT

LIVE EDGE

COMPANY MILESTONES

Started Exporting to Korean Market

SSR Vina was established in late 2009 and officially commenced operations in early 2010. During this initial phase, we focused primarily on the Korean market with the following key products: Sawn timber for pallets, Flooring for trucks and containers, Wood chips for paper production, Sawdust, wood shavings and wood pellets for boilers and cattle bedding, Cashew nutshell husks used as animal feed.

2010 - 2012

Driven by a lifelong passion for wood and the vision of bringing Vietnamese products to the world, Mr. Hung Van Vu – President & CEO – established SSR VINA. This was the beginning of a journey dedicated to transforming natural resources into products of global quality and lasting value.

Founded SSR Vina

2009

2018 - Now

During this period, SSR focused on designing, manufacturing, and exporting wood products made from locally sourced materials. At the same time, we diversified into imported wood products, including Teak and Ash.

We also expanded our offerings to include a wide range of interior and exterior finishing products such as decking tiles, wooden entry doors, wooden windows, mouldings, and wood stair parts, with North America and Europe as our primary markets.

Additionally, SSR VINA grew its export markets to over 40 countries and imported round timber from Europe and Fiji for the domestic market.

Research and Adapt

2013 - 2017

Building on its early success, SSR VINA has broadened its product portfolio and global reach. We now export veneer, plywood, finger-jointed boards, and butcher block to over 25 countries, with North America, Europe, and the Middle East as our key markets.

In addition, we have developed and manufactured Butcher Block Countertops, offering a variety with wood countertops, tailored to meet international standards of quality and design.

Supplied sawdust and wood shavings in the form of Ruf briquettes as fuel for fireplaces in supermarket systems across the global market.

FACTORY SYSTEM OF SSR VINA

SSR VINA operates a modern and fully integrated manufacturing system strategically located across Vietnam, designed to meet the increasing global demand for diverse wood products. Each facility is equipped with advanced production lines, precision technology, and strict quality control processes. This allows us to ensure consistent standards, maximize efficiency, and maintain scalable capacity, while delivering products that meet the expectations of international markets. Our factory system not only strengthens supply chain reliability but also optimizes production costs, helping us remain competitive in a fast-changing global environment.

With a combined capacity of nearly 275,000 m² of products per month, SSR VINA is capable of handling large-scale orders and OEM/ODM Demand requirements with speed and reliability. From customized kitchen cabinet programs to full-scale furniture components, our factories are built to serve both OEM partners and global distributors. The strategic proximity of our manufacturing sites to raw material sources and international seaports ensures seamless logistics, faster delivery, and long-term stability. This robust manufacturing network positions SSR VINA as a trusted partner for clients in Canada, NA, Europe, and beyond!

WHY CHOOSE US?

Cost-optimized sustainable wood products

Professional staff, highly skilled workers

Rigorous **Quality** Control

15 years of experience supplying to over 50 countries

Customization to meet customer requirements

Pursue relentless quest for **innovation**
